

AWCBC QuikStats

The intent of this project is to give a quick snapshot to CEOs/Presidents on some of the more easily collected statistical measures without the delay of waiting for KSMs. These are not KSMs. QuikStats uses an indexed approach. Jurisdictions use their own definitions; there is no quality or definition review done by AWCBC. The charts presented simply show trends for each jurisdiction, not actual values (except Investment Returns). QuikStats are internal measures shared only with CFOs and CEOs/Presidents and are not for external distribution.

Measures

Investment Returns:

This comparison shows actual YTD Investment Returns.

Claims Registered:

This comparison shows the trend of a jurisdiction's YTD claims registered compared to the YTD claims registered at the same time period the previous year.

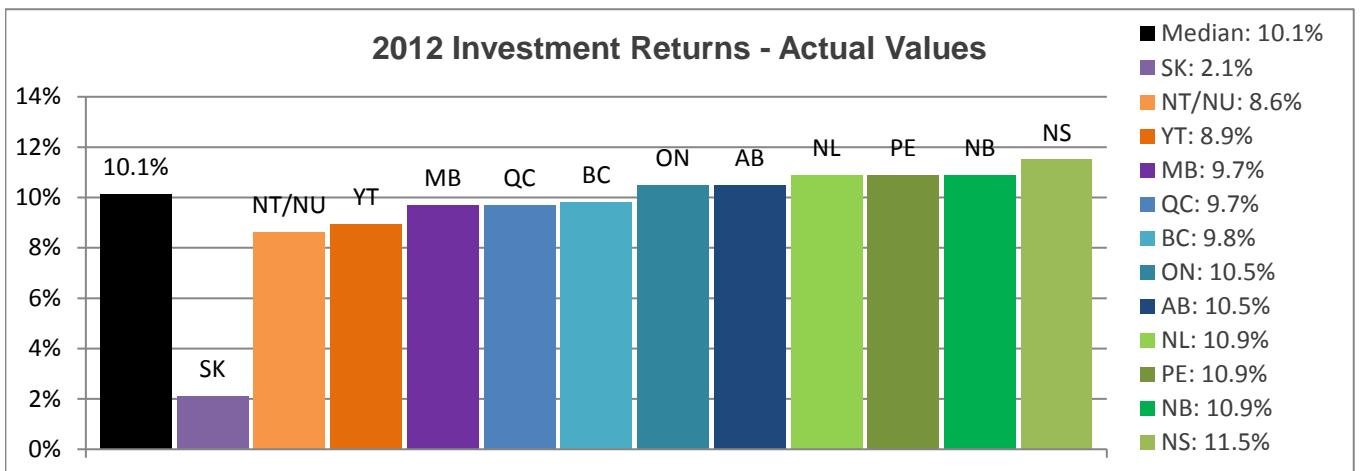

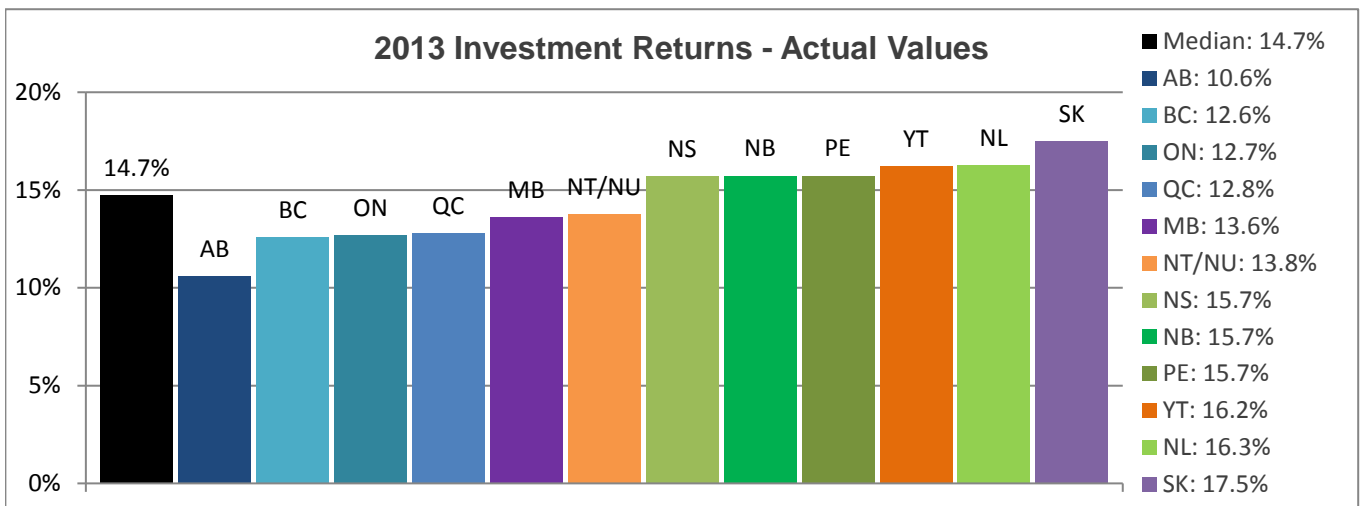

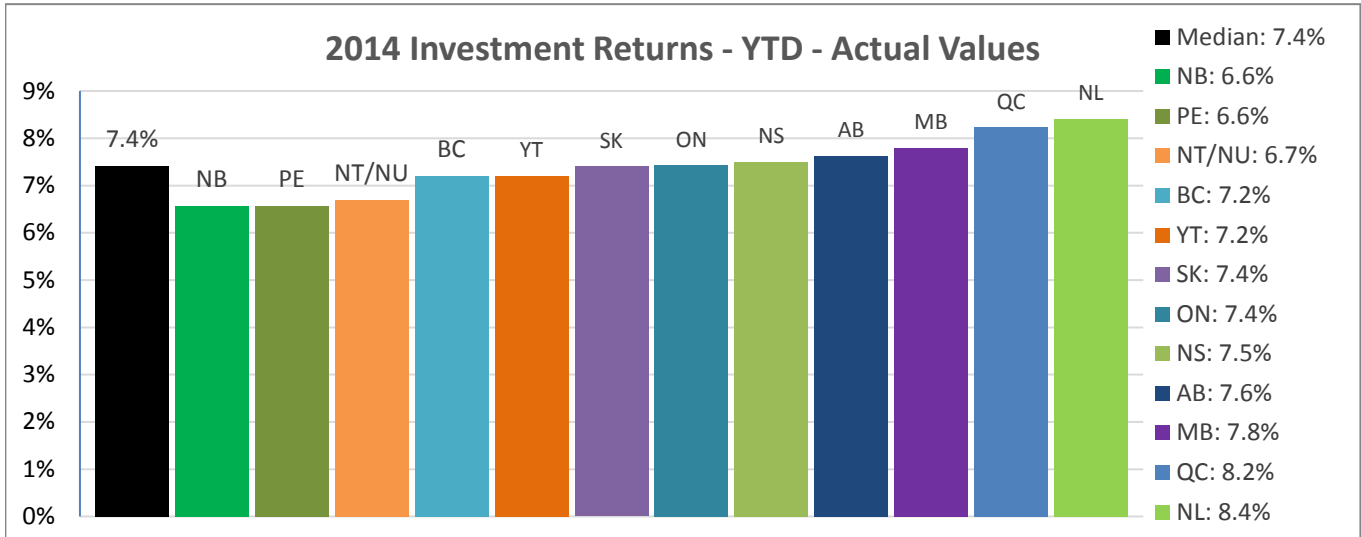

Duration:

This comparison shows the trend of a jurisdiction's duration compared to the previous year.

Injury Rate:

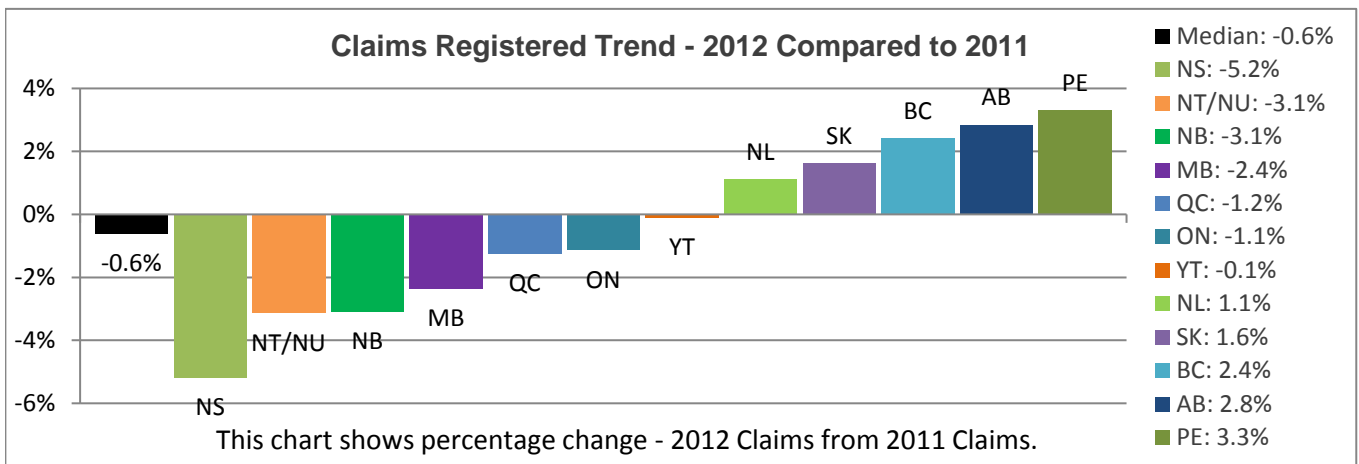

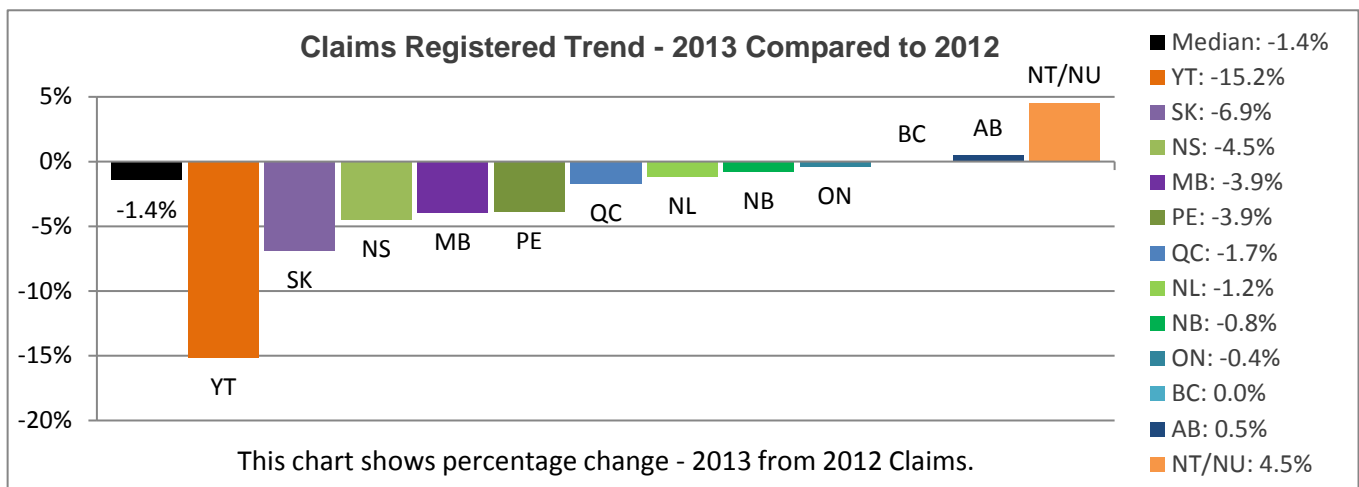

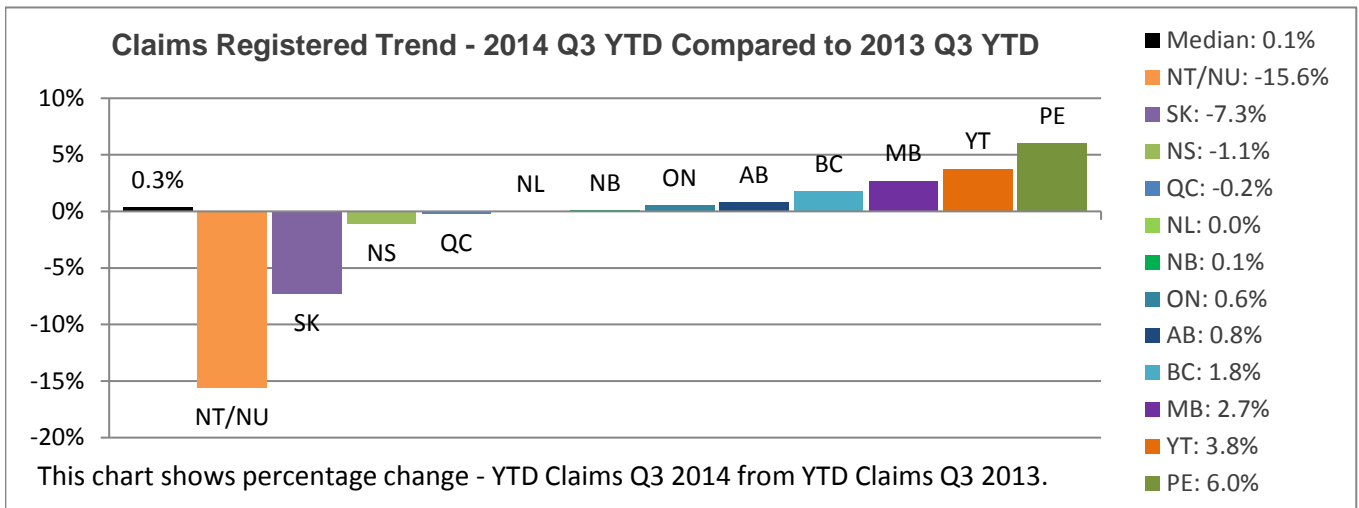

This comparison shows the trend of a jurisdiction's injury rate compared to the previous year.

INVESTMENT RETURNS

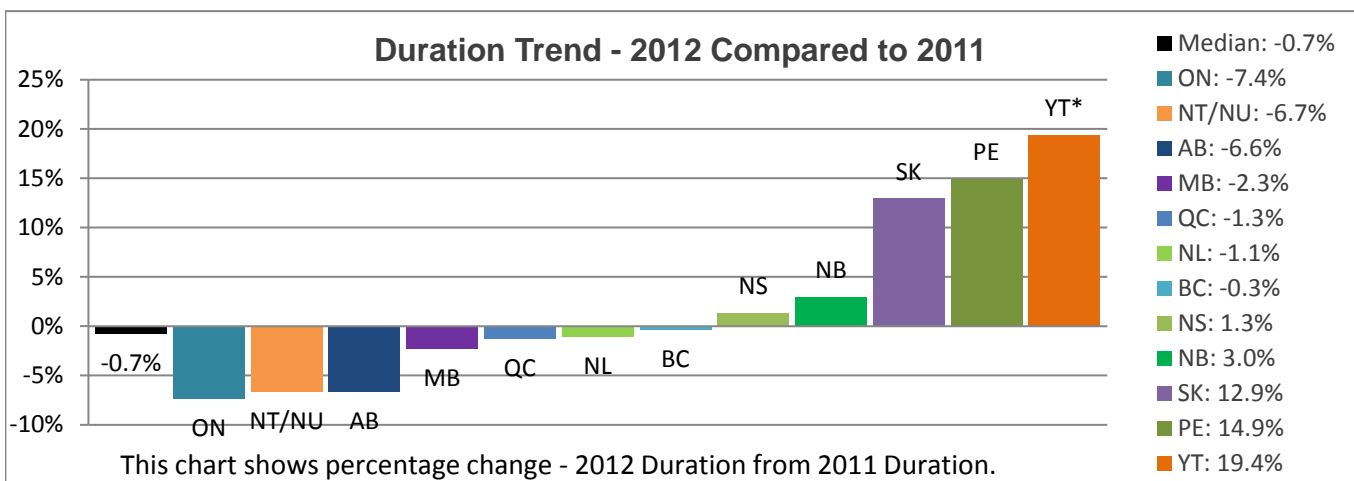

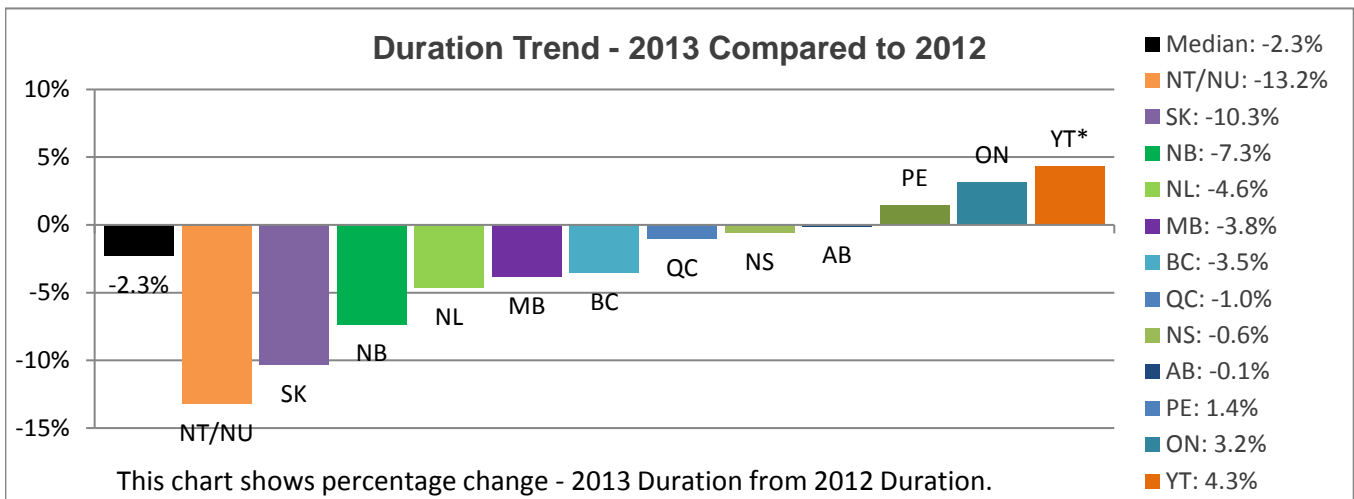

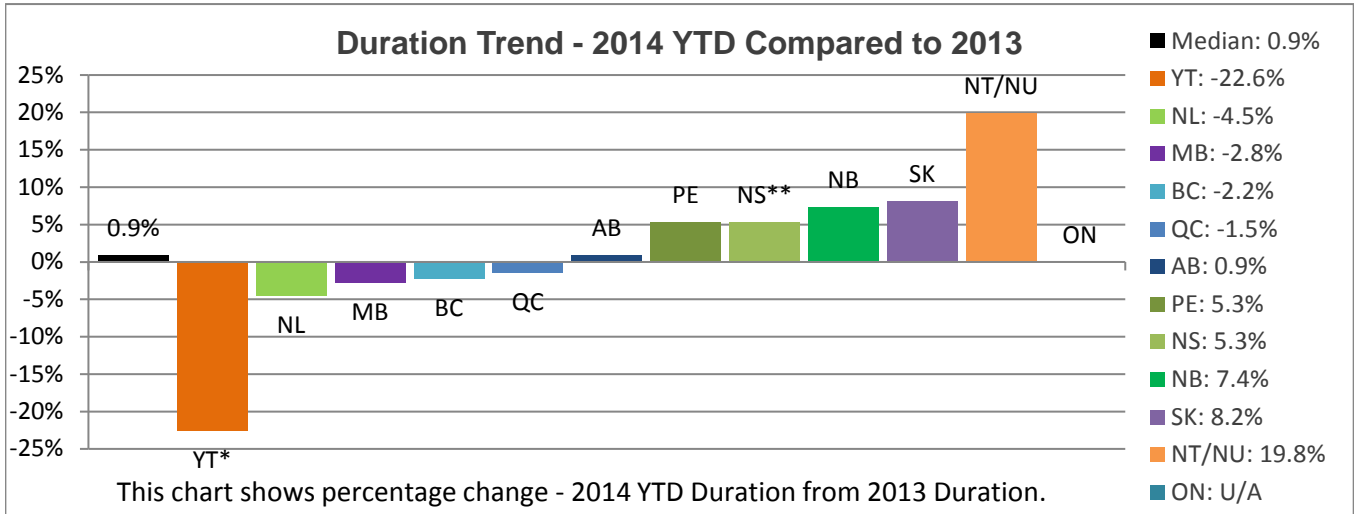

- Investment Returns show year-to-date (YTD) investment returns.
- Data are actual values.
- 2014 Quarter 3 Investment Returns unavailable at time of collection for Saskatchewan.

CLAIMS REGISTERED

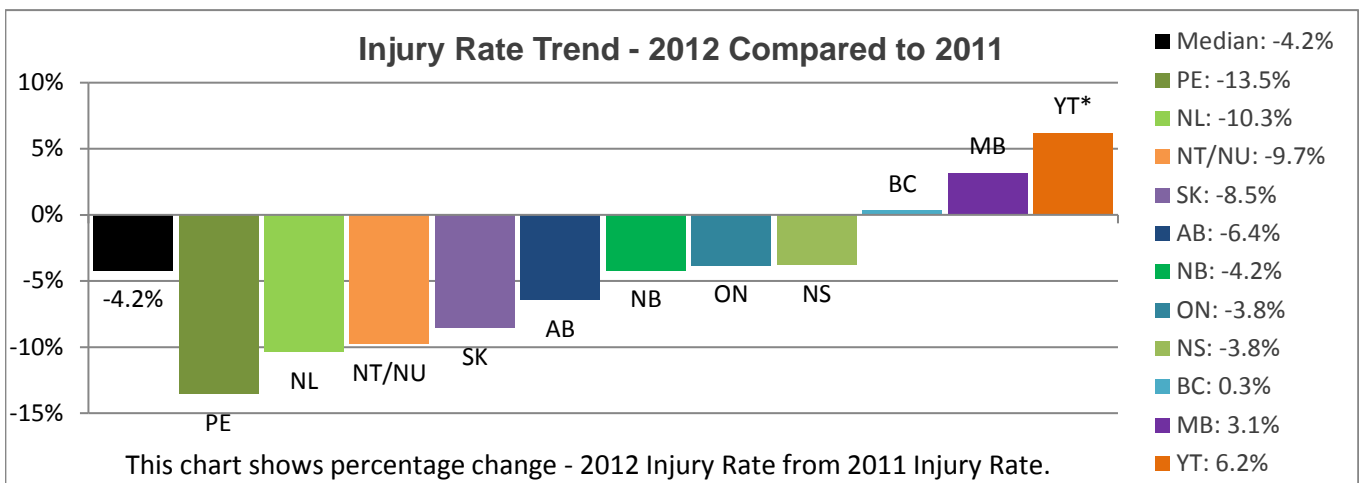

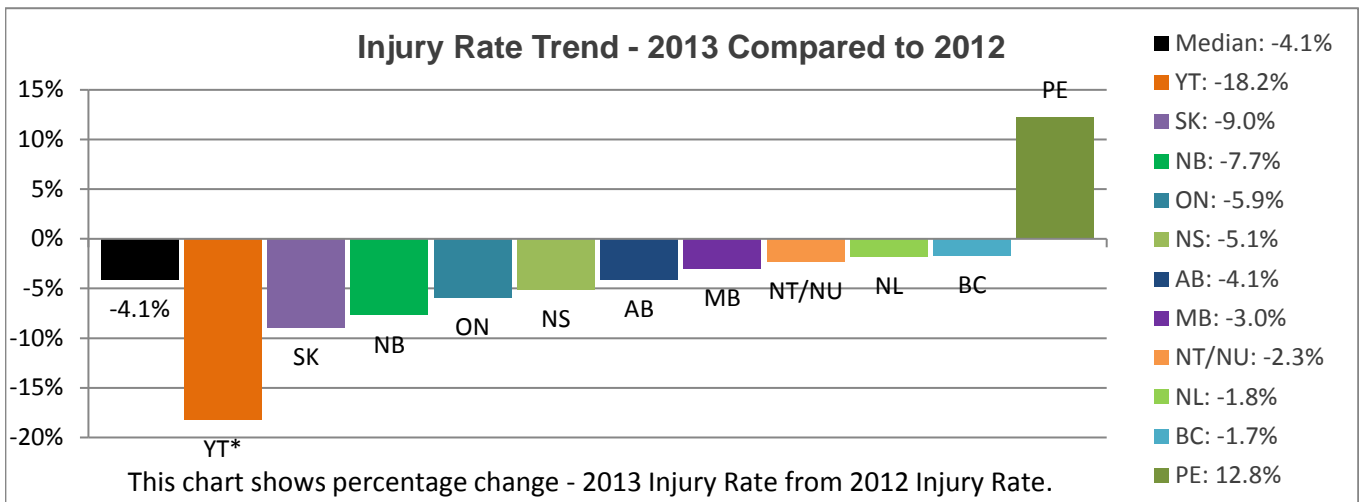

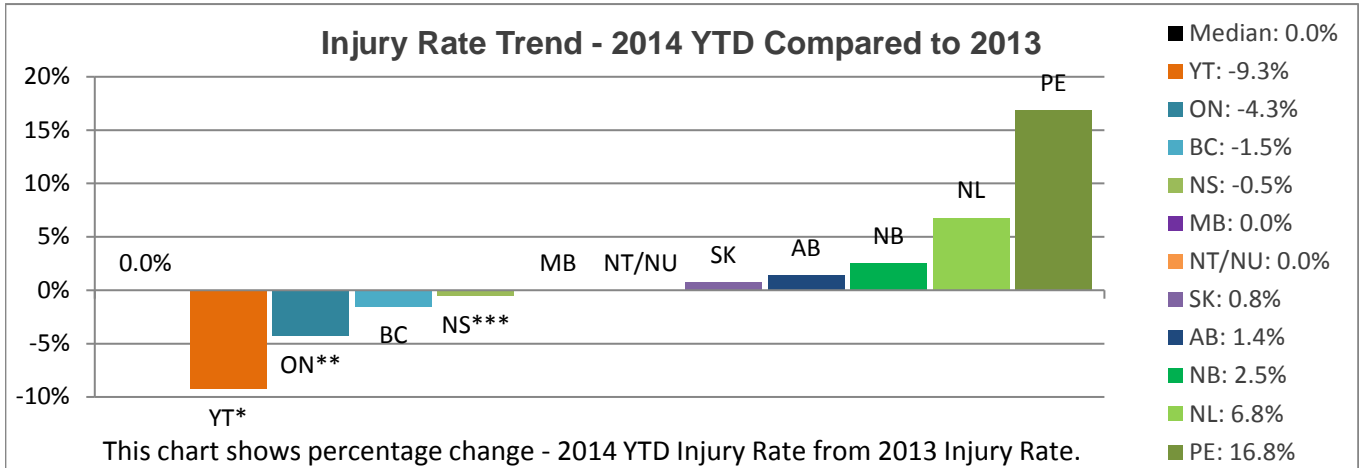

- Claims Registered uses year-to-date (YTD) claims registered.
- This comparison shows the trend of a jurisdiction's YTD claims registered compared to the YTD claims registered at the same time period the previous year.
- Prior years' charts show the percentage of increase/decrease year over year (e.g., 2012 claims are compared to 2011 claims).
- Jurisdictions use internal definitions that are not necessarily comparable between jurisdictions.
- The charts above show trends, not actual values, for each jurisdiction.

DURATION

- The charts above show trends, not actual values, for each jurisdiction.
- Jurisdictions use internal definitions that are not necessarily comparable between jurisdictions.
- 2014 Quarter 3 Duration unavailable at time of collection for Ontario.
- * Yukon's Q3 2014 is compared with Yukon's Q3 2013 value (not final 2013 annual value). For all other year's each year's Q4 value is compared to the previous year's Q4 value.
- * Nova Scotia's Q3 value is August figure (most recent).

INJURY RATE

- Data for Quebec is unavailable at this time.
- The charts above show trends, not actual values, for each jurisdiction.
- Jurisdictions use internal definitions that are not necessarily comparable between jurisdictions.
- * Yukon's Q3 2014 is compared with Yukon's Q3 2013 value (not final 2013 annual value). For all other year's each year's Q4 value is compared to the previous year's Q4 value.
- ** Ontario's Q3 2014 is compared with Ontario's Q3 2013 value (not final 2013 annual value).
- *** Nova Scotia's Q3 value is August figure (most recent).
