	Those in attendance: Ron Helmhold, Laurent Charron, AB; Steve Barnett (Chair), Brian Erickson, BC; Lorena Trann, MB; Peter Murphy, Tim Petersen, NB; Christine Stratton, NL; Gloria Badari, NT/NU; Maureen Boyd, NS; Dan Hogg, Rob Hinrichs, ON; Tammy Turner, PEI; Anne St. Martin, Guillaume Baril, QC; Gail Kruger SK; Jim Stephens, YT; Michelle Beavington, AWCBC. Guests: Richard Larouche, Eckler; Neil Parkinson, KPMG						
May 10 th 1.	Approval of agenda - Steve Barnett welcomed everyone to the meeting. Introduction of attendees were made. Steve Barnett reviewed CFO items that went to Executive Committee in March 2011 (agenda item 6), including QuikStats project that will go to AWCBC Board of Directors May 12, 2011.						
2	 Funding of Occupational Disease Claims Richard Larouche from Eckler presented on funding of Occupational Disease (OD) claims, including new actuarial standards. Of particular note, the actuary may deviate from this standard if required under terms of an appropriate engagement. The Standards of Practice require that the actuary includes a provision for potential OD claims in his report. The reporting in the financial statements is the Board's responsibility, as is the financing and funding of those claims. R. Larouche also outlined the OD Actuarial Model that was developed in Alberta. 	M. Beavington to distribute presentation (complete). Ron Helmhold and Steve Barnett to formulate and distribute a questionnaire around data collection. This item to be on Fall 2011					
	Two main questions were raised: (1) Do you book the liability? And (2) If you do, will the auditors require more scrutiny? Action point: There may be joint work that can be done. A data collection exercise should be done this year. Steve Barnett and Ron Helmhold to formulate a questionnaire to send out to everyone and figure out what questions to ask and see if data can be collected around latency periods. This item will be added to Fall 2011 agenda. See presentation.						
3	 IFRS 4 Implementation Neil Parkinson, KPMG, presented on IFRS 4 implementation, including update on (a) discount rate; (b) risk + residual margin, or composite measure; (c) presentation of the statement of comprehensive income; (d) modified measurement approach; (e) transition period and effective date; (f) timeline and IFRS9; and (g) convergence of IASB and FASB. See presentation for specific detail. IASB to release final standard in 4th quarter this year. See IASB website for discussion. Once there is a final standard, there is an opportunity for WCBs to see if everyone will treat discount rate the same way. There was discussion on whether external auditors believe WCBs qualify for IFRS4 and whether there is an explicit form of insurance contract. AB putting together position paper that they are IFRS4. Action point: After standard comes out, this group should assess where it is with IFRS4. There may be a discussion of alternative options. 	M. Beavington to distribute presentation (complete) After new Standard comes out, assess IFRS4.
