

STATUS REPORT 180/300 DAYS

By doing a status report, the Compensation Consultant (CI) and the Rehabilitation Consultant (CR) will be able to properly assess the issues related to the return to work and direct the measures to be taken, i.e.:

- √ Maintain the Case Without Risk status (CSR)
- √ Targeted intervention from the CR to the CSR
- √ Transfer to the PHARE (Aligning Job Reintegration) file
- √ Transfer to the Case With Risk status (CAR)

Thus, when a file reaches the maximum duration as a CSR for the Leave of Absence Profile (PAT) (180 days) or the Interim Solution Profile (PSP) (300 days), it is necessary to document the status report by asking the following questions to the worker:

1. How is your recovery?
2. Do you have a scheduled medical visit (in the next 40 days)?
3. When do you plan to return to work?
4. How do you think it will work?
- 5.

Answers will be recorded in a follow-up note (Détectôt) specific to the status report. The information collected in the first two questions will be documented under «Medical condition follow-up» since it is medically-related. The rest of the information collected will be recorded under «Worker's perception of their return to work prospects».
