

WSCC Song: “Work” – Godson

Chorus

We puttin' in work work work,
So you can work safe & be safe at work
So you can work safe & be safe at work
We puttin' in work work work

You got a new job, congratulations
Have you read the rules, or regulations
.. Provide you with facts not tips
While workin' at your desk or business trips
.. You have the right to know what is safe
Tell your boss if the training is too fast paced
Ask questions or ask to repeat
Once you commit, you have to complete
.. get involved it's your right to participate
You might be the next to teach & facilitate
.. Be aware that you have to take care
The right to refuse if the views aint fair
If you feel the need to appeal its unsafe
To work if equipment you use might break
Better to be right then guess what's wrong
The moral of the story & the story is strong

Chorus (repeats)

The evolution of safety is smoother
Learning from the past present & future
Keep in mind that it's still up to you
You're responsible to follow all your safety rules
So wear what you need, proceed to succeed
Open your eyes follow signs that you read
Slow down the pace maybe others will see
That you need to be careful not careless with speed
Agreed, you're on your way from not failing
Don't be afraid to ask for more training
Gaining information is saving
Injury time & lives I'm just saying
If you feel that conditions are blurry
Tell a higher up so it's fixed in a hurry
..Make decisions like a judge & a jury
.. Better safe & you don't have to worry
