

Scope of Coverage - Industries/Occupations

The following tables outline how workers' compensation coverage is determined in each province and territory.

Please note that even if an industry/occupation is included or excluded below, there may be other factors to consider whether a firm requires coverage. For example, in some jurisdictions if a firm has less than a certain number of employees, they do not require workers' compensation coverage.

Some jurisdictions cover all industries/occupations unless they are specifically excluded, while others only cover industries/occupations that are specifically included.

Please contact individual Workers' Compensation Boards/Commissions to obtain specific details about whether your firm requires coverage or can be voluntarily covered by application. Contact information for each WCB/Commission can be found at: [Boards/Commissions](#) on AWCBC's website.

For listing of individually liable employers in each jurisdiction, see 'Individually Liable Employers (Self-Insurers)' found at [Assessments & Premiums](#) under the 'Individually Liable Employers' heading.

The ['Scope of Coverage - Industries/Occupations'](#) table gives a broad overview of the following topics:

[Workplace Health, Safety and Compensation Act](#), (sections 38 – 42)

Application of Act

38.(1) This Act applies to workers and employers engaged in, about or in connection with an industry in the province except those industries, employers or workers that the Lieutenant-Governor in Council may exclude by regulation.

(2) In addition to those industries, employers and workers excluded under subsection (1), the commission may by regulation exclude an employer or worker from the scope of this Act, where it is of the opinion that the exclusion is appropriate.

(3) Notwithstanding that certain industries, employers or workers are excluded from the scope of this Act, the commission may, on application, order that this Act apply to 1 or more of the industries, employers or workers otherwise excluded.
