Questions to Explore (choose 1 or 2)

In a Canadian environment experiencing the dynamics of factors such as a changing demographic mix, urban clustering, remote work, increasing mental illnesses, and requirements for extended personal economic sustainability consider the following questions:

- 1)** What are the critical current and evolving threats and their implications for Workers' Compensation? (Identify the top three threats.)
- 2)** What changes, modifications, adjustments do you anticipate will be necessary in order to address the threats and deliver effective Workers' Compensation services and programs?
- 3)** What subjects do you need to learn and understand more about to help in preparing your Workers' Compensation organization to deal with the threats?
